

**THE PRESENTATION OF THE COMPANY**

## ABOUT THE COMPANY

"The Trans Company" is a well developing company with an international range. Our main aim is continuous improving quality of our service. We constantly support our partners in a range connected with widely conceived logistics, improving the system of exchanging information. Our advantages are mainly; individual approaching to the client, perennial experience, complex service, skilled and specialized staff, wide logistic back-up, unique mobility, informatics system with GPS system of communication and also high efficiency and flexibility.

For every attending customer we prepare different, individual offer considering the requirements specification of our client.

The foundation of each of these offers is built on following products:

- *experience*
- *specialisation*
- *range*
- *flexibility*

Our offer is directed mainly to exporting and importing contractors, especially to the producers and trading companies.

We offer constant co- operation based on reliability and solidity.

We are always disposable for your service and we provide advice and help.

**OUR ADVANTAGES ARE: EXPERIENCE, PROFESSIONALISM AND PUNCTUALITY**

## EXPERIENCE

Our workers have got the perennial practice in an international transport. Therefore our staff will plan the most optimal route, advise, choose the suitable mean of transport, prepare necessary documents, take care of all required formalities to make your product reach the aim. Co-operating every day with many companies we observe how important advantage is finding the common language with our partner, that's why almost in every case in negotiation process we can find common plane of action suitable for each of co-operating sides. We also have the GPS system of communication which helps us to control constantly your cargo.

The big advantage is the fact that our employees can speak many languages and that makes the contact with clients easier.

## SPECIALIZATION

We specialize in the transport of articles of food and easy spoiling articles. The guarantee of the first class quality service are our modern car units with 33 pallet coolers equipped with temperature recorders and also experienced two person staff what allows us to reduce the valuable time to minimum.

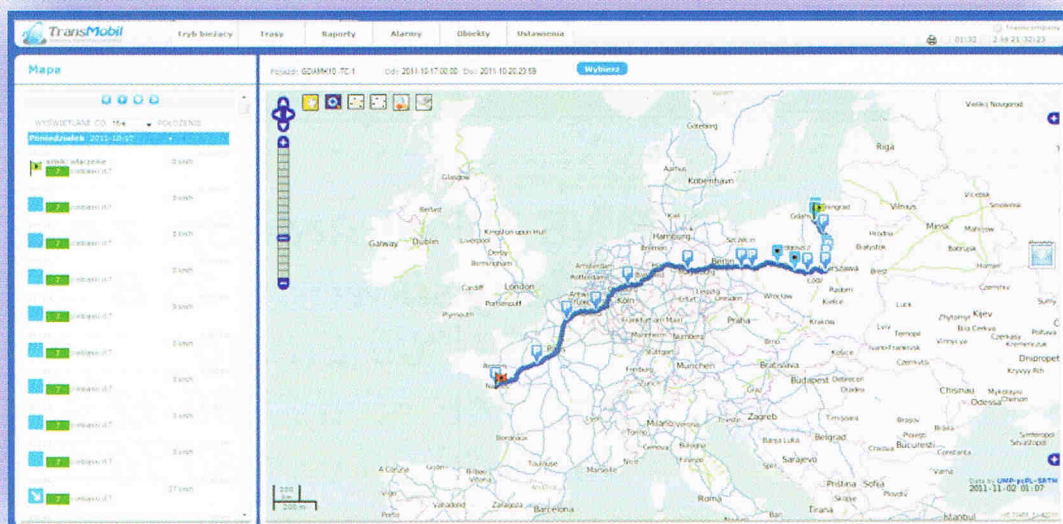

## THE COOLING TRANSPORT IS OUR SPECIALISATION

## THE RANGE

At present we offer our services in most countries of the European Union.

Servicing directions are:

- Spain
- Portugal
- France
- The countries of the Benelux
- Germany
- Scandinavia
- Italy
- Austria
- Hungary
- Greece
- Slovakia
- Lithuania
- Latvia
- Estonia
- Great Britain and Ireland

## FLEXIBILITY

The basal offer quality of our company is flexibility allowing to accomodate its range and conditions to individual needs and financial possibilities of our partner.

Almost in every case we can find in negotiation process with the potential contractor the plane advantageous for both sides.
